

SWARM ROBOTICS · HANDS ON

Drive a real robot with your phone

Six e-puck2 swarm robots are waiting. Two scans and you're in control.

1 Join the robot WiFi

Point your phone camera at the code and tap to join.

PASSWORD

EpuckRobot

This network has no internet. If your phone asks, choose **Stay connected**, and turn off mobile data if the page won't open.

2 Pick a robot and scan its code

Match the number on the robot. Each code opens that robot's remote control.
